LINDERBERG 28 YEARS OLD.
MR. TAFT AND MR. HUGHES.
ALAS, A FALLEN DOVE.

By Arthur Brisbane

LOS ANGELES, Feb. 5.—Yesterday was Colonel Lindbergh's 28th birthday, reminding us that early success is still possible, if you are able to say, as Napoleon said after crossing the Alps in winter, "I deserve credit only for not believing fools who said it could not be done."

Colonel Lindbergh "cooked a batch of flapjacks" and went up in a glider, an airplane with no engine, paying little attention to the glider's physical condition apparently. One aileron dropped off. Spectators thought Lindbergh would be killed. He came down safely. The public will be much obliged if he will at least examine the wings of his gliders.

William Howard Taft resigns as chief justice of the United States. He, for the time, retires to private life taking with him public appreciation of his fine qualities. He was a good judge, and what is more important a good man, one that has helped many, and never knowingly injured anybody. May good health return to him soon.

Charles Evans Hughes returns to the supreme court as chief justice. At President Hoover's request, in him the people have a brilliantly able man, worthy to take Mr. Taft's place.

And from Mr. Hughes' acceptance of the position you learn that honor and opportunity to be useful are more important than financial profit. Mr. Hughes gives up a private law practice worth more than \$500,000 a year for the small salary and great opportunity of the supreme bench.

Doves played at the feet of Venus, fluttered about her head. Doves cooed at the feet of the rustic bride. The dove appears in beautiful religious pictures and in Chaucer "she sang full loud and clear."

"Dove" as a rhyme for "love" represents first aid to young poets. And now the gentle creature, said to say, appears as assistant to the bootlegger. Captain Benton, head of the Los Angeles sheriff's liquor squad, found on the beach an exhausted carrier pigeon, and tied to its leg a message, obviously intended for some bootlegger—"Be ready to receive cargo at appointed place off Chicago at 2 a. m."

Chicago's retail advertising institute is told that American women spend every year \$53,000,000,000. A million is a great deal. A thousand millions is a very great deal. Fifty-three thousand millions, spent by women in this country, is an extraordinary amount of money.

They spend it wisely, as a rule, because they know enough to read advertising carefully, realizing that he who invests millions in his good name, through advertising, will do nothing to jeopardize that name. Women are said to buy 41 per cent of all automobiles and 96 per cent of dry goods. They really buy 96 per cent of automobiles also, because men buy what women want or desire.

Mr. Edward Canter, who drops into literature as Mr. Weeg dropped into poetry, says "496 people on incomes of \$1,000,000 or over. There would be 497 if I had listened to my wife instead of my broker."

Many will smile a sad smile, reading that. But in a few months 99 per cent of the many, on slight encouragement, will be gambling, listening to the dictates of fancy, rather than to common sense.

MAN MUST DIE FOR HIS CRIME

Killed Three After His Arrest
On Liquor Charges; Used
Shotgun In Act

Romey, W. Va., Feb. 5.—After deliberating 17 hours, a jury today found Walter Crabtree, who shot and killed Magistrate H. Carter Inskeep and two constables in December 18, guilty of first degree murder.

The verdict, which the defendant took calmly, carried no recommendation for mercy, and the death penalty automatically follows. Crabtree's family was not in the courtroom.

The triple shooting followed Crabtree's arrest and conviction before Magistrate Inskeep on a liquor charge. Later, armed with a shotgun, he sought out those whom he blamed for his predicament.

Judge O'Brien, Wife Observe Anniversary

New York, Feb. 5.—Mr. and Mrs. Jean J. O'Brien were the toast of New York today. Pictures beamed their home; their pictures were in the papers and they received presents and congratulations from all parts of the state. For today they celebrated the 50th anniversary of their wedding.

Judge O'Brien was former presiding justice of the appellate division of the supreme court.

FEED STORE SAFE LOOTED BY ROBBERS

Council To Consider 1930 Improvement Plan

KOONTZ URGES SOLONS SPEED ALL PROGRAMS

Committees to Meet With City Officials In Coming Week

PAVING PETITIONS SHOULD BE FORMED

Railroad Asks for Storm Sewer Near Present Freight Station

The 1930 street improvement and sewer construction program, in its entirety, will be completed and mapped out at a joint meeting of three standing committees of city council with City Engineer F. S. Barkhoff and City Auditor Helen R. Woerther early next week, insuring the city of an early start in another outstanding year in municipal improvements.

Plans for the meeting were submitted to council by President Geo. F. Koontz at the group's first February meeting at council chambers. Koontz instructed chairman of each committee to conduct active investigations during the remainder of the week in order to have all plans ready for action when the meeting is held next week.

The sewers and sewage disposal, streets, alleys and sidewalks, and appropriation and finance committees were delegated to confer with the two city officials concerning the year's program. There are several streets already included on council's improvement plans while additional ones are expected within the next month.

Koontz charged the committees with urgency of getting final action on all street improvements ready in order that contract may be let during the spring months. Work on all, according to the plans the council president forwarded, will be completed during the summer.

L. R. Cobble is chairman of both the appropriation and finance committees and the streets, alleys and sidewalks group. The former, together with the chairman, includes John C. Litty and W. U. Filler and the latter is composed of Cobble, Litty and C. F. Zimmerman. Litty, chairman; Joseph Callidine and Samuel Kraus compose the appropriation and finance committee.

Litty presented a request from the Pennsylvania railroad that a storm sewer be installed in a court adjacent to the company's freight station on Mill at property owners requesting improvement of North Union ave. between East State and Third sts. by paving, was referred to the streets, alleys and sidewalks committee for investigation.

Engineer Barkhoff will have estimates on all streets now included on the year's improvement program made out by next week, he told council, and it is probable that the meeting of the committees with the engineer and auditor will be held Monday night. Extensive study will be given to all projects and the costs involved to ascertain whether the city will have sufficient funds to make all improvements petitioned.

Streets and sewer improvements will be made in the order petitioned. Koontz told councilmen, and all persons now proposing to start a petition for any improvement, should do so immediately to insure its being placed on the year's program.

To Take Briefs On Lake-River Canal

Washington, Feb. 5.—The board of army engineers, considering the Ohio river Lake Erie canal project, today gave the opponents and proponents of the canal an opportunity to file briefs and other data bearing on the subject.

The board already has received a mass of information and is expected shortly to begin its report, either recommending the canal or telling congress the plan is not feasible.

Compensation Pay Mailed By State

Columbus, O., Feb. 5.—Delinquent checks to beneficiaries of public employees' compensation in 27 Ohio counties were in the mails today following an order which was issued by the state industrial commission to rescind its order of Jan. 18, which suspended the payments.

Under this last order, nearly 450 claimants throughout the state will receive checks. The industrial commission said that payments will continue "until such time as there remains no cash balance in the state insurance fund which is contributed by public employers."

Police Hunt Man

Salem police are looking for H. Pearson, of Salem, who is alleged to have passed a bad check, amounting to \$23.60, at the Golden Eagle clothing store, Saturday night.

Wins \$33,000 In Divorce Suit

Mrs. Verona de Vere Teachout, with her son, Herbert Harold, 4, after Judge Rhoades ordered Harold Teachout, Des Moines banker, to pay his divorced wife \$67,000. \$33,000 is to be paid on Jan. 1, 1934, from her husband's inheritance. If Teachout dies before inheriting the estimated estate of \$246,000, then it is to be divided if Mrs. Teachout can collect anything at all, according to the judge.

Air Race Around World May Be Staged During Summer

Cleveland, Feb. 5.—An airplane race around the world is in prospect this year, it was learned today, following the announcement here of John Henry Mears, New York show producer and well-known globe trotter, that he has contracted for a Lockheed Vega plane and will attempt to better the Graf Zeppelin's mark of 21 days, seven hours and 34 minutes.

Harry A. Husted, Cleveland manufacturer and aviation enthusiast, has already contracted for a Fokker plane and announced his intention of contesting the Graf's round-the-world record.

CHICAGO ROCKED BY HEAVY BLAST

Cause of Explosion Still Mystery To Police; Bomb Suspected

Chicago, Feb. 5.—An explosion of undetermined origin, followed by a fire, wrecked four stores here today, causing damages estimated at \$35,000. Five persons were hurled from their beds by the explosion and sustained cuts and bruises.

Police and fire officials were unable to determine whether the blast was caused by a bomb or by leaking gas.

A hasty investigation led authorities to believe the explosion occurred in the shoe store of Max Blumensol. A clothing store next door was so badly wrecked, however, that it was difficult to locate the source of the blast.

The blast also damaged a confectionery store and a shoe repair shop. Windows were broken for several blocks around.

The injured include Peter Procki; Mr. and Mrs. Joseph Kalina and their children, Anna, 20, Adeline, 16, and George, 15.

Election Campaign Brings Many Deaths

Bucharest, Feb. 5.—Furious clashes between political opponents have taken a toll of seven dead and 39 seriously wounded so far in the present election campaign in Roumania. It was estimated today.

The latest sensational incident in the campaign was the slaying of a barber named John Moldaviansu today. Moldaviansu's throat had been cut by someone wielding a razor in a street fight. Basil Octavian, liberal leader and president of the Bucharest law association, ascribed the slaying to political motives.

Wage Troubles

Moundville, W. Va., Feb. 5.—Developments are awaited here today in the wage controversy between officials of the Paisley Coal company and miners of the company who are striking for restoration of an old wage scale.

CHICAGO AGOG OVER ACTIONS OF GANGSTERS

Flaunt Defiance In Face Of Combined Drive Of Activities

BOMB DAMAGE FOR WEEK AT \$100,000

Six Murders In Week Are Stirring Police To Check Crimes

Chicago, Feb. 5.—With two more gangsters slain by rivals, making a total of six "put on the spot" in less than a week, Chicago's underworld today continued to hurl defiance at the combined campaign of State's Attorney John Swanson and Police Commissioner William Russell to end the reign of violence.

Joseph Buckere, 23, was the latest victim of gang guns. Two men boldly entered Buckere's home, engaged in a loud altercation with him, then sent a bullet crashing through the base of his skull.

Five hours before Buckere was slain, two assailants strode up behind Philip Marchese, notorious underworld character, and shot him dead. Pupils of the Irving school, playing across the street, witnessed the slaying. They saw the victim stagger across the sidewalk and collapse. One boy ran to a corner and turned in a fire alarm.

Buckere, according to police, was known under two names and was engaged in a mysterious business which netted him an excellent income although he posed as a grocer.

Neighbors heard the slayers arrive. Loud talking was heard, then Buckere's radio was turned on full blast. A few seconds later they heard a dull shot followed by the thud of his body as it fell to the floor.

The two slayers then raced to the street and drove off in a high-powered automobile.

This was the eighth gang shooting and the sixth murder in the last week here. The present reign of violence and death has been punctuated by numerous bombings, two of which did over \$100,000 damage.

Police and the state's attorney's office are combing in an attempt to check the reign of murder. They admit drastic steps are necessary.

Dobbin Cavorts In Gotham; Fine Set

New York, Feb. 5.—Oh, Mr. Ripley will you just listen to this:

Thomas Downey, 26, decided today to serve two days in jail rather than pay a fine of \$25 which was assessed for driving a horse and wagon in a reckless manner, and it happened right here on the streets of New York.

Downey was in court to face the charge and admitted he "might have been wrong."

CLEVELAND MAN ADDRESSES CLUB

President Of Cleveland Group Addresses Rotarians Of Salem Tuesday

John King, president of the Cleveland Rotary club, addressed Salem Rotarians at their noonday luncheon meeting at the Elks' home, Tuesday.

King discussed "The Philosophy of Rotary" and gave an inspirational talk on purposes of all Rotary organizations. He explained the responsibilities of a Rotarian to his club and to his community.

Fellowship was declared by the speaker to be the real keynote of all Rotary clubs and the principal reason for their organization. He discussed ideas of Rotary clubs, their purposes and duties.

He was accompanied by Tyler Carlisle, past president of the Cleveland club. W. H. Dunn was in charge of the meeting.

Baptist Church Has Successful Service

The first Baptist church reports that the recent revival meetings, conducted by Dr. J. W. Ham, of Atlanta, Ga., here have the best results of any services of this kind held by the church for a number of years. A number of members have been added to the church.

Baptismal services will be held next Sunday when the rite will be administered to about 30 people.

From Salem Dr. Ham went to Marietta, O., for his second engagement within a year at the First Baptist church. Later he will hold evangelistic services in Dayton and Olean, N. Y.

The young couple declare they are married and were starting out on their honeymoon. They are being detained until their story is checked.

THREE NATIONS DISCUSS NAVAL EQUALITY BASIS

Battleships Form Topic For Britain, Japan, U. S. Problem

London, Feb. 5.—While no definite agreement has been reached, Great Britain, the United States and Japan are grappling with the battleship problem and are considering as a basis of discussion detailed suggestions put forward by the American delegates to the naval arms conference, it was learned today.

Both the British and American delegations are emphatic in declaring that no agreement is likely to be reached until the question of auxiliary tonnage has been cleared away.

But contrary to expectations, battleships have suddenly come to the forefront of the conference, with the three big naval powers discussing continuation of the Washington battleship building holiday until 1936 at least, with great interest.

It is learned on good authority that the Americans have made the following suggestions to the Japanese on the subject of battleships:

1.—Extension of the lives of present capital ships from 20 to 25 years, which would mean an effective building holiday until 1936.

2.—Scraping of three battleships by the United States, five by Great Britain and one by Japan in the near future, bringing the battleship fleets of the three powers to a 15-15-9 level.

3.—Eventual replacements on the basis of the present tonnage of 35,000 each, but with limitation of guns from 16 to 14 inches.

Secretary of State Henry L. Stimson, leader of the American delegation, has stressed during the course of the negotiations the fact that the United States is not desirous of forcing the Japanese into (Continued on Page 4)

Bandit Shoots His Victim; Not Serious

Columbus, O., Feb. 5.—Local police were continuing a search here today for an alleged robber who shot William Gibbons, 24, and then fled. Gibbons was taken to a local hospital where his wound was treated but his condition is not serious.

The wounded man told police that the gunman took to his heels after the weapon which he aimed at him, was discharged. He got into a car which was parked nearby, and made his escape.

Called to Columbus

Lisbon, Feb. 5.—In response to a telegram from the state highway department, county commissioners with Clerk L. H. Johnson left this morning for Columbus, where a conference with the highway department was scheduled for 1:30 o'clock this afternoon. The wire to the commissioners did not refer to the purpose of the conference.

Homes Quarantined

London, O., Feb. 5.—Eight homes are under quarantine in Monroe township today as a result of a smallpox epidemic, according to an announcement which was made today by County Health Commissioner R. H. Trimble.

MONEY, PAPERS STOLEN DURING MORNING HOURS

Dragged Safe from Place Into Etna Street, Broken Open

WORKER DISCOVERS SAFE AFTER CRIME

Robbery Is First Crime Of Importance Since October Thefts

Robbers entered the Walter A. Moff brook store, 782 South Broadway, broke into a safe by smashing the combination lock, looted it of its entire contents, and escaped with approximately \$150 cash, together with valuable papers, files and record books, here early this morning.

The robbery is believed to have occurred about 3 a. m. It is the first to occur in this city since the series of safe robberies and filling station holdups which took place in Salem last October.

Entrance was made into the store by breaking locks on the front door of the building which led directly into the office where the safe was located. The strong box, weighing approximately 600 pounds, was hauled from the office into Aetna st., a short distance from the scene of the crime, where it was smashed open.

Break Safe Open
The combination knob of the safe was broken from the door by use of chisels and hammers, police believe. Full contents of the strong box, \$150 in cash, papers, files and records, all reported of value to the concern, were taken.

The robbery was revealed when a truck-driver, enroute to his place of employment at the Deming Pump company, saw the safe lying on Aetna st. He notified police who investigated. Police Chief T. W. Thompson and Patrolman Ralph Stoffer conducted investigations.

Walter A. Moff, owner of the store, offered a reward for return of the records and other papers included in the robbers' loot, shortly after the crime was discovered.

First Crime In 1930

This robbery is the first major crime occurring in Salem this year. Several business office safes were looted by robbers during October, 1929.

No arrests were made in these cases. More than \$250 was taken from the Citizens Ice and Coal company safe on Oct. 3. One safe in the Salona Supply company office was looted but nothing of value taken and an attempt was made on a second. Two filling stations were held up, and one Salem woman was robbed during the month.

FOUR SERIOUSLY BURNED IN FIRE

Father Carries Children From Burning House; Loss Is New Total Loss

Xenia, O., Feb. 5.—Mr. and Mrs. Moxie Caraway and their two small children were seriously burned today when coal oil, with which the mother was starting a fire in a smoking range exploded in their farm home at Bowersville, near here.

Paul, 5, was burned about the face and head and inhaled some of the flames, which caused serious throat burns. His condition is critical.

The father, 29, was seriously burned on the arms, hands and face when he carried his family from the blazing kitchen.

Mrs. Caraway, 28, was burned on both legs. A son, Hubert, 7, escaped injury. The home was completely destroyed by the fire before help could arrive.

Cleveland Police Stage Raid Series

Cleveland, Feb. 5.—Smartering under Safety Director Edwin D. Barry's wrathful order to "clean up or get out," eight police squads raided 11 alleged vice joints last night and early today and arrested 47 men and three women.

One of those arrested was Harry "Pony Boy" Weinzimmer, well-known club owner and night life figure here. He was held for investigation in connection with the operation of games of chance.

Young Plan Accepted

Berlin, Feb. 5.—The Reich federal council today accepted the Young plan for reparations payments by a vote of 48 to 6. Twelve members abstained from voting.

SENSIBLE RETRACTION

The Senate Committee on Privileges and Elections has reached the only intelligent conclusion possible in the case of Joseph R. Grundy, whose right to retain the seat to which he was appointed by the governor of Pennsylvania was left to its discretion. It has reported that the constitutional provisions and the Pennsylvania statutes governing appointments to fill Senate vacancies have been met in every detail and Mr. Grundy is secure in his rights.

It may be an excuse to ridicule, or it may be an excuse to praise but the Senate is forced to admit inconsistency in this decision if it accepts the committee's judgment. Three years ago, that body refused to accept Colonel Frank Smith, an appointee from Illinois, whose case is parallel to that of Mr. Grundy's. Colonel Smith was excluded after presenting a commission from the governor of his state entitling him to fill a vacancy caused by the death of Senator McKinley. The unexpired term was to run out on March 4, 1927. At the election of 1926 Colonel Smith had been chosen for the six-year term beginning March 4, 1927, and ending March 3, 1933. It was charged that he had made or that others had made in his behalf, in the Republican primary preceding the election, expenditures which many senators considered excessive. On the ground of such expenditures, which violated no state or Federal law, he was barred in January, 1928, from the Senate for the elective term and his seat declared vacant, although his appointment had no connection with the primary or the election of 1926, and his constitutional qualities were not disputed.

Senator Nye, to be sure, has sensed the inconsistency of different treatment of the two cases and has insisted on an identical procedure, on the claim that Mr. Grundy raised money to be spent in the 1926 primary for the nomination of Gov. Fisher.

The Smith and Vane exclusions were made during a period when the character of Senator James A. Reed was exerting undue influence on the Senate. There has been a marked return to a policy more closely approaching the middle ground since that time and the backing up is saved from being too ridiculous because it is a movement in the right direction. The governor of a state has the authority to appoint, and his certificate is valid if the person named is constitutionally qualified. The appointee's title may be subsequently attacked and he may be expelled, but he should not be deprived of his right to represent the state which certifies him until that happens.

DESERVED REST

The resignation of Chief Justice William H. Taft because of ill health strikes grief to the hearts of millions of American citizens. Few men endeavor themselves to their countrymen to the extent that Mr. Taft's warm personality and eminent ability have enabled him to do. His long and distinguished service as a high governmental official has made him one of the distinguished figures of modern times. He has been an integral part of American government for a quarter of a century.

There is universal hope that the Chief Justice's health will benefit by the respite from official duty which his resignation will bring him. He has served long, his only reward hitherto has been greater responsibility and it is not too much to hope that he may be able to finish his distinguished career in the peaceful twilight which comes at the end of a day of labor well performed.

What Others Say

LAUDS CHURCHMEN

The faith of men in the supreme spiritual reality may express itself in many differing formulae, in many varying rituals, in many sorts of organization, but in spite of these diversities it has an underlying unity which more and more we recognize and which tends increasingly to bring us into co-operative relationship for the service of humanity.

Within the Protestant group of sects the Federal Council of the Churches of Christ in America represents the most comprehensive and most effective instrument for promoting this co-operation. Recently its executive committee held its annual meeting in Chicago, and surveyed the work which had been done, and the field in which need and opportunity challenge further effort.

There has been a good deal of misunderstanding concerning the aims and methods which characterize the council. Much of this misunderstanding has been created by deliberate misrepresentation on the part of those who are antagonistic to the spread of Christian principles in the world's life. There is a pagan spirit in America which resists the message of Jesus. It has its organization, its newspapers, its magazines, its methods of propaganda and obstruction. There can be no greater tribute to the work of the agency of Christian faith, such as the Federal council, than the active opposition of this pagan spirit. The more bitter and vindictive it is in its attacks, the more sure can we be that the cause of faith is making headway, is gaining ground. If faith were subject to complacency, concerned merely with the singing of hymns and the reciting of prayers, the pagan forces would ignore it. Only in so far as it is seeking to translate its ideals into terms of life, into terms of human relations in society, in business, in industry, into terms of citizenship and international policy does it find itself the target of attack.

The Federal Council of Churches has been a vigorous exponent of the spirit of international good will and peace. In this role it has spoken with united voice for millions of American men and women who believe that war is not in accord with God's thought for the world, and that the way of Jesus is the way of understanding and reconciliation, of good faith among peoples and the brotherhood which reaches across barriers of race and nationality. And because it has spoken thus loyally and earnestly it has aroused the hatred of those who cling to the pagan view of life and find in war a necessary and apt expression of that view.

At its executive meeting the council invited the fullest investigation of its organization and methods, and took occasion to make clear the fact that it maintains no lobby at Washington or anywhere else. In a statement issued during its Chicago session it declared it has carefully refrained from employing "any lobbyist or legislative representative, and from using any form of political or personal pressure or partisan argument, but has relied wholly upon the moral power of its statements to influence public opinion."

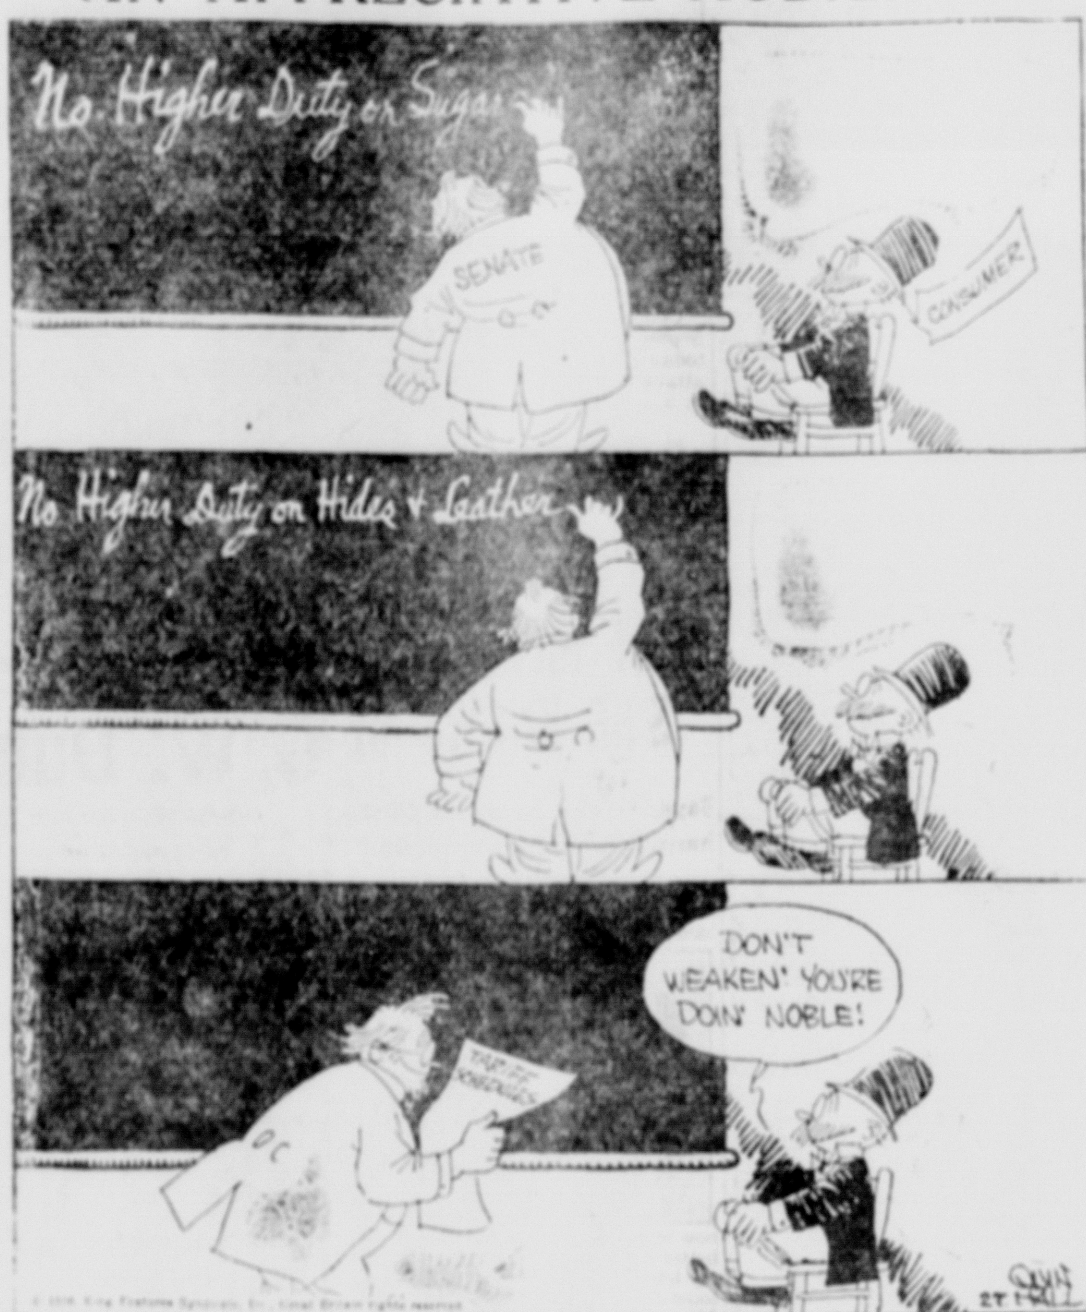

The council has a Washington office, just as it has a New York office but the annual budget of its Washington office is only \$11,000, and the executive secretary who directs it is paid the princely salary of \$1,500. Three-fourths of the Washington office budget are expended on assisting the army and navy in the work of chaplains and in aiding disabled veterans.

PRACTICAL PROHIBITION

Pountain Inn's liquor history is funny. For months there will be no booze. Then some "legger" will set up near town, hauling his supplies from the mountains by night, or making it himself on some bush-hidden branch, and for a time there will be hell among the heathen. The good church people will protest and protest, and officers will squirm under their taunts and rebukes, until at last the evil-deer is caught in the act and sent up. Then the community will be dry—but only for a month or so. Now it is wet—very, very wet. Everybody seems to know who furnishes the whiskey, but nobody seems to care. A week or so ago a car load of corn was captured and the owner, who was not present, was told to appear and "make bond." During an epidemic of piety he would have been treated harshly, but now he is happy and free. The truth is, most local people either like liquor or are indifferent to the law that prohibits it. And those who buy and those who sell can go quietly about their affairs, unmolested and unafraid, until somebody makes a fool of himself and thus awakens the righteous to a sense of their duty. The liquor is plentiful, but it's not a lead pickled the new Baptist preacher will stir up the fire and dry things out again when he comes—Robert Quillen in Pountain Inn (N. C.) Tribune.

HEALTH

By Dr. Royal S. Copeland

NIGHTMARE!
Did you ever wake up with a start, believing you had just fallen from the balcony or out of the cherry tree? Such an experience is unpleasant, leaving you with an "all-gone" feeling.

The physiology of sleep is still incompletely understood. Progress is being made in unravelling the terms. Only recently new theories regarding it have been advanced.

Nightmares are apt to occur only at rare intervals. Usually they may be traced to some emotional strain, or to some indigestion. It is quite possible that dreams are influenced by the quality and quantity of blood which reaches the thought centers in the brain.

DR. COPELAND during lecture.

Improper eating is a common cause for dreams of all sorts. Sometimes school duties prey on the mind of a child, and if this is so, the daily work gets mixed up in the dream. The studies should be lightened. Any other fear or worry should be removed, if possible.

An impressionable child should not be told or read exciting bedtime stories. Neither should he be treated to exciting play just before going to bed. All kind of excitement late in the day should be avoided. It must be remembered that any intense nervous strain is liable to bring bad dreams or nightmares.

It is important that the young child should have a definite and regular bedtime hour. He should have regular meals and be kept from indigestible food.

It is a good thing to have a nervous child, one given to bad dreams, sleep near older persons in the household. I do not mean he should

sleep in the same bed with somebody else. If at all possible to arrange it, every child should have a separate bed.

Over fatigue and excitement of any sort react on the sensitive nervous system of a young child. We are not doing our duty toward the growing child unless we make sure there is plenty of restful sleep. Everything that interferes with his rest should be removed.

Admiration very often are accompanied by bad dreams. This condition interferes with proper breathing. See your doctor and have the admires removed at his direction.

Nothing is better for the nerves than simple, nourishing food, plenty of fresh air and sunshine, good physical care and mental harmony are the rights of childhood. Watch your growing child and see that he gets all these. His later years will show the good results of early care and training in right habits of living.

Answers to Health Queries
G. E. Q.—Would the system be harmful in any way for the removal of "superfluous hair from the face?"

A.—I am not familiar with this particular method but if the hair is removed by an expert, skilled in this particular kind of work, the results should be satisfactory and lasting.

Mac Donald Scored For Naval Policy

London, Feb. 5.—Former Premier Stanley Baldwin, speaking before a meeting of members of the conservative party in the coliseum theatre, today charged Premier Ramsay MacDonald with a lack of frankness in naval matters.

"If the recent scrapping of cruisers has resulted from decisions inside the London naval conference," Baldwin stated, "The country should have been informed. If it was merely a gesture, it was equally important that the country be so advised."

The former premier promised the laborite government of Premier MacDonald the support of the conservatives in naval matters so long as the government plays its promised part of frankness.

Police Investigate Death of Salesman

Martins Ferry, O., Feb. 5.—The body of Frank A. Krim, 52, traveling salesman and former local business man, was found on the shore of the Ohio river near here today with only his feet in the water. No marks were found on the body. Krim left his home here late yesterday following a family quarrel and did not return. County authorities are investigating the mysterious death.

Taft Very Ill Man, Nurse Tells In Interview; Some Reports Exaggerated, Claim

Washington, Feb. 5.—Probably the person most affected over the sudden change in the condition of William Howard Taft beyond the family and intimate friends is Miss Gertrude Manifold, this city. She first came in contact with the family last June. Since then she has been Taft's constant companion in her capacity as his personal trained nurse. She has been walking with him talking with him and looking after his wants along with Mrs. Taft when Taft's most intimate friends were denied admittance to his sickroom.

She cited the noted statesman's routine during his 10-day stay in Asheville, N. C., today.

She accompanied him to the resort and administered to his wants during the train ride from the resort.

BOY SCOUT NEWS

Troop 31, Boy Scouts, has completed plans for the celebration of the 21st anniversary of the Boy Scouts of America. It was announced today.

The anniversary celebration begins Friday and continues through to Thursday, Feb. 13.

The purpose of the anniversary week is to call attention to what Boy Scouts have done, what they are doing, and to show what the organization will mean to future generations.

The troop program includes these activities: Friday—The drum corps will hold a practice in the evening. Some new equipment is expected. After the rehearsal the scouts will attend a basketball game.

Saturday—An all-day hike is planned. Returning, the troop will tune in on a Scout radio program. Promptly at 8:15 p. m. scouts throughout the United States will stand at attention and repeat the Scout oath.

Sunday—An invitation has been accepted to attend a service at the Methodist church.

Monday—Good turn day—Special attention will be given to helping others. That evening the troop will be the guest of the American Legion.

Tuesday—Each scout will pass one test: Wednesday—Mothers' day—the boys will help their mothers as much as possible.

Thursday—Fathers' day—will be observed with a Father and Son banquet in the evening. A committee will have charge of the entertainment.

A scout display will be arranged in the window of the Home Savings & Loan company.

The scouts will wear their uniforms all week. Troop 31 has 26 active members and is planning a big year of hikes, scouting, camping and helpfulness.

The program committee is composed of Clair King, Leonard Jones and Melvin Moss.

Gray Ghost Master Thought to Be Dead

Cleveland, Feb. 5.—Lee Leonard of Green Bay, Wis., indicted as a rum runner, was scheduled to appear for arraignment in federal court today. He will not be called, however, since he is believed to be dead.

Leonard signed out of Erieau, Ont., late last Jan. 7, as master of the craft, Gray Ghost, carrying 123 cases of whiskey. The Gray Ghost never made port and for more than a month now, it has remained one of the mysteries of Lake Erie. Pending definite proof of Leonard's death, his case has been continued.

Leonard was arrested last October when he and William Richardson of Windsor, Ont., attempted to land a cargo of liquors here. Richardson is very much alive and his case was scheduled this morning.

FOR--

Salem Merchants Only

Being one of a series of chats with Salem business men in which they are told how they can increase volume of sales.

THERE'S money in Salem. There are people aplenty here to spend it. There's good business for you—IF you, the merchants of Salem, join the Salem News in keeping Salem's business in Salem.

It all boils down to the very important thought that the nearby, bigger towns and mail order houses are ALWAYS trying to attract trade from the smaller communities.

Always trying! Very often succeeding! And, sad but all too true, to the detriment of you, the merchants of Salem and the merchants of all other smaller towns.

What to do about it is a problem you must help solve, if you are to prosper. A mighty vital problem it is, too, as you well know.

Just the same we can keep Salem's money in Salem. And the folk of Salem can be brought around to the habit of buying in Salem almost exclusively. And you can make both conditions possible.

Here's how.

The very next time a salesman, from whom you order merchandise comes to your stores, sell him on Salem. Of course, you must sell yourself first. Get Salem-minded. Get the salesman feeling the same way.

You need the advertising aid of the manufacturers whose goods you stock—urge salesmen to recommend this paper

When a salesman gets enthusiastic about Salem, he's bound to pass his enthusiasm on to the sales manager of his company.

And then the manufacturer of the goods you buy will begin thinking of Salem. He'll think of it, not as small spot on his office map, but as a community where you, his retailers, are trying to sell his goods for him.

He, too, will get Salem-minded and feel more justly obligated to give you the advertising support in your local, home town newspaper that he's giving his retailers in the bigger towns.

He'll get over the notion that he is reaching the folk of Salem with his advertising in bigger towns' newspapers and in the general magazines.

Yes, you merchants of Salem! That's the solution to the whole problem. Sell the manufacturers of the goods you stock your shelves with on Salem. Sell them through their salesmen.

The manufacturers' advertising in the Salem News will help you sell more of your merchandise to more and to the greatest number of Salem's people.

This advertising support will help keep Salem's money in Salem. It will mean good business for you—and more of it.

This newspaper has joined small town newspapers all over the country in a nation-wide campaign to convince national advertisers that they can best assist small town merchants by advertising in the local, home town newspapers of the small town merchants.

any agreement satisfactory to them. If, however, Japan would be satisfied with continuation of the present 5-5-3 ratio with America and Britain, it is regarded likely that the American suggestions, which involve the scrapping of only one Japanese battleship, may result in a satisfactory agreement.

The conference which resulted in discussion of this battleship proposal, however, was not confined to capital ships alone. Cruisers and submarines also were discussed, the Americans indicating their willingness to concede Japan a 6.5 ratio in 8-inch gun cruisers instead of the 76 per cent ratio which Japan originally asked.

The Japanese made it clear they are not anxious to accept a maximum tonnage for submarines as low as 1,500 tons, as her present undersea fleet contains a number of 2,000-ton submarines.

Bandits Steal Car From Policemen

Cleveland, Feb. 5.—Two bandits had a jolly good time, and a profitable one at that, at the expense of Cleveland police here early today.

Stealing a police car in front of central police station shortly before 1 a. m., the two gunmen drove brazenly to a restaurant just off public square, herded seven patrons and employees into the basement and looted the cash drawer of \$140. Then they coolly drove away in the police car.

Several hours later the police car was found standing at a street curb in southwest Cleveland. One of its tires was flat. There was no trace of the two daring gunmen.

HOME-MAKING HELPS

By Wanda Barton

The Mechanical Man—rumor about him and his activities in big industrial plants reach us very often. He has even appeared briefly in the movies, entitled Mr. Telex, instead of the foreign word, Robot.

But now some enterprising inventor has given a thought to the needs of the home woman, and has invented a little mechanical watchman to take care of some simple jobs. It is literally that—a small metal clock that releases the busy home woman from some unnecessary watching. Of course, being very young, its activities are as yet quite limited, but we can hope for all

sorts of good things from this small beginning.

Just now, this little clock can be depended upon for several tasks: By properly connecting it, and setting the dials, it will turn on or off any electrically operated machine—like stove, washing machine, and what else have you that needs switching on or off? Which means that you can set the dials for the proper time, then go off shopping or to a movie, knowing that when the moment arrives, the automatic watchman will stop the current.

Another happy thought that has been developed is to make this little robot turn on the radio to wake you up early in the morning. A great blessing to those of us who find getting up early more endurable if it's under cheerful auspices. Nobody loves an alarm clock—despite its noble purpose. Being waked up by a cheerful radio voice is somewhat of an improvement.

"Meanest Thief" In Columbus Is Active

Columbus, O., Feb. 5.—As the epidemic of taxicab, grocery and residence hold-up robberies continued here today, apparently unabated, another "meanest thief in the world" had been discovered.

Warner Charlton, a newsboy, told police that while he was selling newspapers on a downtown street last night, a man called him into an alley on a pretense of buying a paper, threatened him with a revolver, and took \$3 from him.

Detroit—Ancient and outworn "blue laws" such as the one which made it illegal for a man to kiss his wife on Sunday, were cited in a recent address by Judge Edward B. Benore as an example of the lengths to which the present-day prohibition fervor may lead.

A CLEAR COMPLEXION

Ruddy cheeks—sparkling eyes—most women can have. Dr. F. M. Edwards for 20 years treated scores of women for liver and bowel ailments. During these years he gave his patients a substitute for calomel made of a few well-known vegetable ingredients, naming them Dr. Edwards Olive Tablets. Know them by their olive color.

These tablets are wonder-workers on the liver and bowels, causing a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, take one of Dr. Edwards Olive Tablets nightly for a time and note the pleasing results.

Thousands of women and men take Dr. Edwards Olive Tablets—now and then to keep fit. 15c, 30c and 60c.

COUNTY WOMEN ASK DIVORCES

Husbands Are Defendants In Actions; Wrong Name Said Used

Lisbon, Feb. 5. — Bethel Davis, through her counsel, Cochran & Crawford, has filed a divorce petition in common pleas court against her husband, John O. Davis, a pool room operator at East Liverpool, and said to possess property and money to the value of \$25,000.

The couple were married Dec. 28, 1910, and have three children.

Mrs. Davis has set up, that her husband fought and quarreled with her and that he attacked her in front of the Y. M. C. A. at East Liverpool, in July 1928, when she was knocked to the sidewalk. On Dec. 31, last, at the home of Mrs. Bessie VanFossen she was again beaten by her husband. A hearing on the question for temporary alimony has been set for Feb. 10.

Thomas Case, whose residence is unknown has been sued for divorce by his wife, Eunice Case, a minor, her petition having been filed by Atty. Cecil K. Scott, of Salem. The couple were married at Lisbon, July 24, 1926, the defendant using the name of Case at the time he applied for a marriage license, when his real name was Harold Gerhke. In addition to a decree the plaintiff asks the court to return to her maiden name, Eunice Hunt.

Mother Asks For Child

Habeas corpus proceedings have been filed in common pleas court by the State of Ohio on relation of Elizabeth Standley of Orchard Grove ave., East Liverpool, against the Standley and David Standley of 1722 Globe at East Liverpool, for the purpose of having a child of the relation returned to her.

The petition states that she is the mother of Jack D. Standley, aged two, and that the father of the child is deceased. Mrs. Standley has stated that the defendants are unlawfully restraining her from having the custody of her son, which was taken from her by fraudulent means Dec. 23, last.

MOVIES

"RIO RITA"

Local fans declare "Rio Rita" to be one of the most pretentious pictures they have witnessed. The extraordinary quality of Bebe Daniels' singing voice; the irrespressible comedy of Bert Wheeler, Robert Woolsey and Dorothy Lee; the sumptuous sets and above all the beauty of Harry Tierney's music have created a cinema sensation in town.

John Bole, whose voice has already won him a ranking position in the talkies, sings the leading male role opposite Miss Daniels. Others in the cast include Don Alvarado, Helen Kaiser, Georges Revenant and Miss Rosta.

Many of the beautiful choruses of 160 girls in "Rio Rita" were in the original Ziegfeld stage production and helped make the "Kinkajou" famous.

"BATTLE OF PARIS"

"The Battle of Paris" has its final showing at the Grand tonight. The story is that of a street wail who becomes an artist's model and falls in love with him, only to have her lover taken away by the war. She stays behind and does her best to add to the gay spirit of "The Battle of Paris" with her carefree singing and dancing. When her lover returns she has yet another battle, that of winning back his love for he is enraptured with a dazzling entertainer in one of the American restaurants.

Many of the popular melodies of the war and a number of new songs are presented by Miss Lawrence.

GREENFORD

The P. and O. Telephone company spent Friday putting up more wires in Greenford so as to lessen the number of phones on a line.

The NEW ESSEX Challenger

The common exclamation of everyone when he has ridden in the new Essex Challenger is: "How did you do it! How do you get this greater power and faster get-away! How do you get this speed?"

"My Essex the Challenger is a wonder—but, man, this is a revelation."

It is a new Essex Challenger from front end to tail light. It is longer, larger car. The Super-Six motor is made smoother and given a wider performance range. The motor retains every advantage you know in economy and long life. It is so distinctly modern in all things that count that you must want to own it.

The bodies are roomy. Three won't crowd the rear seat. There is room for your hat. You don't have to squeeze into the driver's seat. The clutch and brakes operate at the slightest foot pressure. Proper balance and mechanism make it easy to steer.

This sweeping challenge is for you to know the facts. It is for you to know that a thoroughbred automobile is available at a price all can afford.

CARNERA STARTS THIRD RING ENCOUNTER WITH UNIQUE "RECORD" MADE

BY DAVIS J. WALSH

New York, Feb. 5.—Having persuaded the Illinois authorities that they had wronged him deeply, Primo Carnera, the 7-ft-10-in. man who won both of his American fights in a punch—it may even be that it was the same punch—will go right on with his fiasco tomorrow night, with a gent by the name of Cowboy Billy Owens as the fungo, fungo or fungus. The event is scheduled for the Newark armory and it ought to be a gripping encounter.

Realizing its importance, the authorities should have no stone unturned, or something. Only expert timers, vouched for by the A. A. U., should be at the ringside and, if the American record is broken, the fact should be announced in a very

firm voice, so that the spectators can compare it with their programs and cheer wildly. The spectators are entitled to this courtesy. If they don't see a prize fight, they ought to be allowed to hear one.

Should Be Timed

They also are entitled to protection against error and so I protest against the use of the tenth-second watch. There is some question as to its absolute accuracy and the International Athletic Federation keeps throwing these records out as fast as the watch can make them. This is very discouraging. All they throw out are the records.

Anyhow, if the watch can't be depended upon to "catch" a sprinter in the act of crossing the line, I fear it cannot cope successfully with a boxer on his way to the floor and this is very important. Primo established his first American record when Big Boy Peterson withdrew in 70 seconds. His second was made in Chicago a few nights ago when Eliezer Rioux prostrated himself in 7 seconds.

This makes Primo's total fighting time in America 1 minute and 57 seconds, which used to be pretty fair time for the half mile, and if we are going to make a contest of it on this basis, we want to get it right.

Record Not So Good

I am assured, too, that it is the only basis upon which a contest with Cowboy Billy is possible, certain pugilistic gentlemen having begun to blow the whistle very shrilly on the cowboy. They say he has a record that only a mother could love. It is supposed to include, among other things, five fights with Godfrey and five knockouts, none of which happened to Godfrey. They also declare that he went ten rounds with Eliezer Rioux himself, which furnishes criticism for both parties automatically.

Anyway Cowboy Billy is not supposed to be any better than Big Boy or Eliezer and, much as I hate to say anything unkind about a prize fighter, I feel that I have grounds for suspecting that the man who is no better than this pair, isn't really good.

So the maddened thousands doubtless will see another split-second finish tomorrow night and, for the life of me, I can't see why I should worry about it, except that Primo still has 63 seconds to go before completing a full round since arriving in America. After he does that, he probably will be all tired out and have to go away somewhere for a good, long rest.

Quakers To Play

Damascus, Feb. 5.—The Damascus Quaker basketball team will play the Sebring American Legion team Thursday night here. This is a return game for the Quakers. The Legion team won in the first game.

Two preliminary games will be played. The Belmont Ex-Highs will clash with the Sebring Freshmen, while the Damascus Freshmen will play the Salem freshmen.

Risko Gets Plum In Miami Embroglio

New York, Feb. 5.—Johnny Risko, Cleveland baker boy, and Victorio Campolo, Italian heavy-weight, were considered horse-shoe holders today among the big boys, having been awarded the semi-windup spot on the Sharkey-Scott card at Miami, February 27. After a mad scramble in which Young Strikling of Georgia, and other stars bid for the honor, Madison square garden officials announced selection of Risko and the Italian.

A. A. U. Events

New York, Feb. 5.—The A. A. U. national track and field championships will be held in Madison Square Garden on Tuesday night, March 18, instead of in the new auditorium in Atlantic City. Joseph T. England, chairman of the national track and field committee, announced officially today.

Swedish Gymnastics Through Esperanto

Stockholm, Feb. 1.—An attempt to teach Swedish gymnastics in esperanto will be made at Liljeda, a suburb of Stockholm, this summer in connection with a general gymnastic festival at the Stockholm Exposition—in which at least 12,500 Swedish gymnasts and 20 foreign societies will take part. The course will last two weeks and will be given under the auspices of the Swedish gymnastic society.

It is about a hundred years since the system of "Swedish gymnastics" was founded by Per Hendrik Ling, a poet and patriot, who wanted to revive the vigor of the ancient Vikings. It has since spread to nearly all parts of the world and has many devotees. The late Georges Clemenceau practiced it daily during the greater part of his life and attributed to it much of his vitality. In fact, he would not give up his daily drill until just before he died. King George of England also took Swedish gymnastics to aid him in his convalescence a year ago.

McArtors, Electric Furnace Register Easy Triumphs In Drab Class A Cage Battles

Printz Klub Tossers, Art Jewelers, Lose In Contests Tuesday

Electric Furnace and McArtor Florists registered easy victories in the city Class A basketball league in games played at Memorial gym Tuesday night.

The furnace aggregation eased through to a 32-23 verdict over the Art Jewelers in the first game while the Posies annexed an 18-10 decision over the Printz Klub tossers. Both games were among the most uninteresting in Class A competition viewed this season.

With Vogeli and Costanzo tallying more than the total points garnered by the entire Art combine, between them, the furnace held the edge all through the opening contest despite the addition of Joe Desmon, former Alliance High star, to the losing quintet.

Sidinger Bolsters Furnace

The furnace-makers stepped in front by an 11-7 score at the end of the first quarter and held a 19-13 lead at the half. Clarence Sidinger, student at the University of Cincinnati, returned home for a brief stay and appeared in the furnace lineup, strengthening it considerably.

The Florists coasted most of the route against the Printz Klub but nevertheless should have rolled up a higher score. They amassed a 10-9 score in the first quarter then holed all through the remainder of the contest. It was the rankest kind of a basketball game in all departments of play.

The McArtors used nine players in the game and would have used more if there were additional ones available. It was the team's second straight win.

Bill Kaminsky's Lease Drug flippers scored their third triumph in the Class B league, annexing a lopsided 25-12 verdict over the Pottery in the evening's preliminary. Summary:

NEAT CLOTHING CHARACTER AND

Appearance of Apparel Important, According To G. A. Lippert

Neat, clean wearing apparel wins admiration from all persons of either sex, according to G. A. Lippert, proprietor and manager of Your Cleaner and Dyer establishment, located at 313 South Broadway.

"Nothing detracts more from a person's personal appearance and character," according to Lippert, "than stains and spots in clothing. A person's clothes should always be kept in a clean condition, pressed and ready to wear to all occasions."

"There is no article too fine or difficult to handle in cleaning and pressing work. An old suit or dress can be renovated in such a manner that the owner will be surprised."

Light suits which the young man may wish to have dyed will be changed to any desired color by Your Cleaner and Dyer's dyeing system, one of the finest in the city. Dye work is done safely with no danger to the garment. Sweaters, lighter clothing, suits, overcoats and topcoats are all dyed by the concern.

Your Cleaner and Dyer has built up a substantial business throughout the city and vicinity because of the prompt delivery service. The telephone number is 532.

Wilbur T. Lippert, formerly connected with his father in Your Cleaner and Dyer concern, is now enjoying the midsummer weather in Miami, Fla. He left here a week ago with G. Edward "Ted" Scott and will probably return during the summer.

Cousin of Duce Toils As Laborer

Niles, O., Feb. 5.—Dominic Muscolini, who toils day in and day out for \$4.50 at the Carnegie Steel Mills at McDonald, near here, is a cousin of the famed Benito Muscolini, II Duce of Italy, but, as Dominic philosophically looks upon the situation, "What of it?"

"Here they ask you what can you do, not what can your cousin in Italy do. I'm happy, so, what of it?"

Dominic has been in this country for 21 years and says he has no desire to return to Italy and least of all to become a parasite on his famous kin. But, nevertheless, Dominic is a great admirer of his black-shirted cousin.

"He's a born leader," Dominic describes II Duce. "When we were children and played together, Benito always had to be boss. He's a smart man. He has made Italy what it is today."

Dominic said his cousin may visit the United States soon.

"If he should come, I'll lay off work for a day and visit him."

Passing Years Result In Many Improvements In Poultry Farm Here; Was Established In 1902

Established in 1902, the Calkins Poultry Farm, located on the Salem-Lisbon rd., has attracted poultry business from all parts of eastern Ohio as an organization dealing with quality poultry, eggs and chicks. This year will be the farm's seventeenth year, at its present location, notices issued this week by the concern announced.

Necessity of starting immediately towards the organization of a suitable stock of chicks for all persons planning to raise chickens during the summer is stressed in the announcements. Flocks of pure Tom Barron English white leghorns have been increased from a few breeders to 2,400 extra quality birds while in general, each passing year has seen valuable improvements effected in the entire farm, the announcements stated.

"Our 29 years' poultry training," the announcements, issued by H. H. Calkins, continue, "together with extensive study and actual experience, has proven particularly helpful in culling, testing and selection of our breeders, enabling us to produce chicks that grow uniformly in size and weight and improve on the egg-laying qualities. This experience is not obtained from any school except the hard, daily grind required to establish a successful poultry plant from a few hens and a few dollars."

"The year 1929 opens our 17th year on our farm, selling quality poultry, eggs and chicks. Our flocks of pure Tom Barron English white leghorns have been increased to 2,400 extra quality birds. Each year has seen valuable improvements of the flocks, better facilities for incubating eggs and more quality in chicks offered for sale."

"Our foundation stock came from a first-prize winner in the international egg laying contest at

Mountain Grove, Mo., in 1914. Later we added to our flock five breeders from Tom Barron's farm in Catforth, England. In 1925 we imported 42 Barron's high quality breeders. These birds all have excellent trap nest records."

Every breeder is blood-tested for bacillary white diarrhea by Dr. W. J. Blackburn, Salem physician with more than 25 years' medical experience.

"The birds, imported from England are not only among the highest in number of eggs laid, but are the largest of the leghorn variety. The parentage back of them won international fame for their ability to lay more big, white eggs than competing birds in egg-laying contests in Europe, Canada and America."

"Our modern hatchery equipment with change of air every three minutes, live steam for moisture and other advantages, eliminates all chance of the bird's chilling and insures to the public a better hatched chick."

Chicks Sent Parcel Post
All chicks are sent parcel post prepaid, in properly ventilated boxes. Calkins guarantees 95 per cent of the birds to be alive on delivery. Extra chicks are sent in each box.

In addition to the Barron leghorns, the Rhode Island red chicks on sale at the farms, are unexcelled also in winter egg production and are easy to grow and grow rapidly.

Together with chicks on sale at the farms, there are always on supply proper chick foods, brooders, incubators and pest exterminators. Calkins and all breeders, Buckeye and Weston incubators, large stocks of feeders, fountains, hoppers, leg bands, insecticide spray pumps, cod-liver oil endorsed by four states, paint and house paint, guaranteed to keep stocks free from lice and mites, all are available at the farms.

Kitchen Of Ohio Restaurant Has All-Modern Equipment

The average person, knowing a good deal about the exteriors of a restaurant but less about the interiors, would be both entertained and surprised to see a modern restaurant's backstage.

Time was when cooking consisted of a huge fireplace, an open fire, several pots and pans, two smoked eyes and a tickled palate. Those were the days when foods were simple and prepared simply. The art of stew, boiling, roasting, grilling, broiling and broiling worked up powerful appetites. Little food was fried.

But in modern times, when restaurants must cater to all types of appetites, the accomplishments of eating houses must be at the peak of versatility, according to William Nyktas, of the Ohio restaurant, one of Salem's popular food dispensaries located in the heart of the city's business district on East State st.

Noon Hour Rush Period

During noon hours the Ohio restaurant experiences one of the busiest rush periods that could exist in any establishment. Throughout all of its busy hours, the establishment's dining dignity which has made it the popular place it is, waitresses dash from table to table, taking orders and transfer them to the kitchen. Immediate service is given all patrons.

"Our main purpose, however, is to equal in taste and attractiveness home-cooked food."

In the kitchen of the restaurant is some of the most modern of cooking equipment with which Nyktas has enabled to serve the best. The place caters to the taste of the customer—as he or she will have it, so it will be done.

Pies and pastries are all made at the Ohio. They are fresh every day. Sale tastes accompanying old foods are strangers in the establishment.

Everything possible is done to live up to the slogan, "Two places to eat, at home and the Ohio," for when the business man is rushed, cannot take the time to go home, it is the Ohio.

"Our roasting and baking process is one of our secrets," said Nyktas. "Notice if you will the strides forward we have made over the old fireplace. See the advantages of oven and modern accessories. We maintain a standard of 'home cooking' that makes even our own waitresses wonder."

Yes it is all very simple. The most artistic work is usually simplest. Cooking is an art. It is also a science. It requires a special knowledge of manipulation, preparation in color, form and layout. And then scientifically we must know food values, heat required to cook certain foods, and the calorie content so that we may balance our meals for health.

"Our main purpose, however, is to equal in taste and attractiveness home-cooked food."

Heating Problems Solved With Use Of Proper Fuels

Importance of burning the proper kind of coal in the furnace at home is explained in announcements of "four coal facts" issued today by the Salem Builders Supply company.

"Your fire may tell you why you literally roast one minute and freeze the next," the bulletins stated. "It explains why it burns fast and furious then dies out suddenly. The damper control, draft, the fire doors or the fire bed itself may be the cause."

"But the kind of coal you burn is most important of all. Champion domestic coal is suited to the exact needs of any home, free from rock and refuse, slate, low in ash and practically free of clinkers if properly burned. Champion domestic coal is full of heat, fires quickly and burns slowly with a long, hot flame."

Many times, when the furnace is not heating correctly and the damper control, draft and fire doors are not blameable, it is the coal that is the real cause of the difficulties. The ash tells the truth as to the efficiency of the furnace and a glance at the ash heap always is explanatory whether or not you are burning the right coal and in the right way.

Tobacco Burning Qualities Sought

New Haven, Conn., Feb. 5.—Why should some cigars hold the fire better than others?

This is a question which smokers have often asked, and which scientists of the Connecticut Agricultural Experiment Station have made a subject of investigation for the purpose of finding an answer.

The reason that some cigars will remain lighted for an indefinite time, even while reposing on a tray, while others require a box of matches to keep them burning, is that the "burners" had an abundance of rainfall the summer the tobacco grew, giving it a certain chemical property.

Leaf dealers and manufacturers long have known that crops of certain years do not burn well, while those of other years are distinguished for their excellent burning qualities. Also it was realized that the fire holding capacity showed a definite relation to the rainfall. In a dry year the burn was poor; in a wet year, it was good. Why, the Connecticut scientists wanted to know.

Dr. P. J. Anderson, head of the tobacco substation at Windsor, and Dr. E. M. Bailey, head of the analytical chemistry department, cooperated in a study of the contrasting poor burning crop of 1924 when the rainfall was scanty, and the good burning crop of 1927, when the rainfall was generous. Analysis of the leaves showed certain chemical differences in the composition of the leaves; which in turn is dependent on the action of the water in the soil.

Continued rain washes fertilizer from the upper soil. Some of the plant nutrients, such as potash, remain near the top and so are absorbed by the roots. Other nutrients more readily drain away and the plant loses them. Nitrogen, which is harmful to the burn of tobacco, is one of them.

Tests showed that the tobacco grown in a wet year contained, among other constituents, a high measure of potash, and that the nitrogen was present in an unusually small amount.

LEGAL NOTICE
Charles H. Dunlap, residing in
Hainesville, Indiana County, Penn-
sylvania, and Elizabeth Dunlap, residing
in Hainesville, Indiana County, Penn-
sylvania, will take notice that on the
27th day of August, A. D. 1929,
George W. Allen filed his petition in
the Common Pleas Court of Colum-
biana County, Ohio, in case No.
20564, against the above named
persons and there praying for an
order declaring null and void the
transfer of a certain tract of real es-
tate in Salem City described in the
petition filed to said cases, and
known as a part of Lot No. 502 Ap-
praiser's Addition to Salem, Ohio, for
the reason that same was transferred
to said defendants by defendants,
Leslie C. Dunlap and Olive A. Dunlap,
with the fraudulent intention to
defraud their creditors, and that said
property be administered for the
benefit of the creditors of said
Leslie C. Dunlap and Olive A. Dun-
lap, and for such further and addi-
tional relief as plaintiff may be
found entitled to, and justice and
equity require.
Said parties are required to answer
on or before the 23rd day of March,
1939.

RADIO

NEWS AND PROGRAMS

RED ARROW QUARTET

Thirty minutes of hits from current shows will be presented by the Red Arrow quartet, group of singers well known to Salem musical fans who have heard them sing in this city several times. The program comes from KDKA at 6:15.

PHILCO BURLESQUE

For both students of Shakespeare and those who never heard of the man, Fannie Brice and Henry Burdick will offer a burlesque on the balcony scene from "Romeo and Juliet" over the Philco hour network from WABC at 10. The slapstick has been written by Milt Gross whose phonetic yiddish is familiar to many.

Lucid intervals are promised in the sponsors in the form of selections by Louis Bennett, accompanied by the orchestra under the direction of Billy Ariz.

MOBILHOIL PROGRAM

Nathaniel Shilkret will direct his second Mobilhoil broadcast over the WEAF network at 8:30. Two Spanish singers of note being started in the program. The singers are Countess Olga Medelaga Albani and Julian Oliver, both natives of Barcelona.

OTHER FEATURES

A small town in Ohio will furnish the background for the mythical showboat "Maybelle" program over the Columbia chain at 11. Floyd Gibbons, headline hunter of note, speaks over the WEAF chain at 10:30. The Palmolive Revelers, Olive Palmer and Paul Oliver return again to the WEAF network at 9:30. Tom Warring and his "twenty fingers of sweetness" are at KDKA at 7:15. The La Palma Smoker is on the Columbia network at 9:30.

LAST NIGHT'S RECEPTION

Reception was fair but slightly noisy. Distant stations were tuned in with difficulty and WTAM, WABC, WADC and WGY were the best for local listeners. WLW and KDKA were among the noisiest of nearby stations. WHVA was the best of the far-away group. WJAY was fairly stronger than usual.

Owa-Ton-Na Benefited Me More Than Words Can Tell

Mrs. Moser Advises Women Suffering From Nerves, Headaches, Backaches, Dizziness and General Run Down Condition Of Health, To Try This Fine Old Indian Remedy.

One of the remarkable cases where Owa-Ton-Na has proved itself well adapted to aid women is the case of Mrs. Ann Moser, 801 High Ave., Canton, Ohio. She says: "For the past few months, my nerves have been constantly on edge. Headaches, dizzy spells and a weakened condition seemed to be always present. I had heard so much of Owa-Ton-Na, how it had helped women in a similar condition that I finally was induced to try it."

MRS. ANNA MOSER

"Had I done so long before I could have saved myself a lot of misery. So eagerly did I take Owa-Ton-Na that I didn't miss a dose and in a very short time, this fine old Indian Remedy started to give me results. It was just like lifting a big load from my shoulders, so great was the relief. My nerves quieted down, elimination began to be normal, my appetite improved until I could hardly get enough to eat yet food digested properly and caused me no trouble."

"Thank goodness, those terrible backaches and headaches have gone and once again I can go to sleep and get a good night's sleep. I get up in the morning refreshed and feel like doing my work. I want to say that Owa-Ton-Na is especially good for a change of life and I feel there is nothing equal to it, and can safely recommend it to anyone."

Owa-Ton-Na is sold in Salem at Fiedling's Belger and French and J. H. Lease Drug Stores—Adv.
